

**Report of Seminar-webinar- 4 “PANDEMIC - QUESTIONS AND ANSWERS.  
VACCINATION...”**

As part of the project P633-a the SEMINAR-WEBINAR - 4 "PANDEMIC - QUESTIONS AND ANSWERS. VACCINATION... » was held on March 18, 2021. The webinar began with a speech by the Chairman of the Commission on Biosafety and Biological Protection at the National Security and Defense Council of Ukraine, Academician of NAS and NAMS of Ukraine Komisarenko Serhiy Vasyliovych, who shared the latest information from international scientific sources about the virus, its mutations. Then the main report was made by Professor Natalia Vinograd, Head of the Department of Epidemiology, Danylo Halytsky Lviv National Medical University. At first Prof. Vinograd NO made the historical digression about the importance of vaccination as one of the first measures to protect against particularly dangerous diseases that have saved humanity for millennia. Then she told about the impact of new technologies on the development of vaccines, the stages of development and testing of vaccines, the principle of action and differences of vaccines against COVID-19 virus from different manufacturers and explained the term "collective immunity" and the conditions of its formation. Almost 100 people from different regions of Ukraine (Kyiv, Vinnytsia, Ivano-Frankivsk, Lviv, Kharkiv, Odessa, Starobilsk, Cherkasy, Poltava, Dnipro) joined the seminar.

Participants actively discussed topical issues and praised the seminar. All participants of the Seminar received Certificates of Participation.

**See you soon!**
